Revision History

Version	Date	Contributor	Revision / Contribution
1.0	05-10-2026	G.V.N. Sreeharsha	Initial responsibility matrix and Part-1 ownership structure.
1.1	07-10-2026	Chennamraju Vaishnavi	Added Test Plan ownership, test case allocation and testing responsibilities.
1.2	07-10-2026	Devansh Gupta	Added architecture, component and module responsibilities; finalised team-wide distribution.

Complete Responsibility Matrix

Member	Team Role	Documentation	UML / Design	Implementation (Django apps)	Testing
G.V.N. Sreeharsha	Team Lead / Product Owner	SRS + RTM + integration review	Use-case diagram, RTM consistency	C2 Auth & Access Control (accounts), C8 Audit & Logging (audit)	TC-AUTH-01–04, TC-USR-01, TC-SEC-01–07
Chennamraju Vaishnavi	QA / Test Lead	Complete Test Plan	Test traceability; SD-1 Student Registration review	C3 Student Module (students), C4 Hostel, Room & Bed Module (hostels)	TC-STU-01–05, TC-HST-01–02, TC-QUAL-01
Devansh Gupta	Architecture / Development Lead	SAD (architecture and design)	Component diagram, SD-2 Bed Allocation	C5 Allocation (allocations), C6 Payment & Receipt (payments), C7 Reports (reports)	TC-ALC-01–06, TC-PAY-01–02, TC-RPT-01, TC-PERF-01–03, TC-OPS-01

The three members share C1 Web UI templates for the screens of their own modules, and C9 Data Access Layer (models) is built together so the shared models stay consistent. All 33 test cases in the Test Plan are covered: 12 (Sreeharsha) + 8 (Vaishnavi) + 13 (Devansh).

Revision Contribution Across Every Document

Every Part-1 document carries the same three-stage contribution history: revision 1.0 by Sreeharsha, revision 1.1 by Vaishnavi and revision 1.2 by Devansh. The content contribution is document-specific, but every member takes part in every document revision.

Cross-Document Responsibilities

- Sreeharsha (Team Lead / Product Owner): requirements, RTM and integration consistency; authentication, access control and audit.
- Vaishnavi (QA / Test Lead): test strategy, security validation and test execution evidence; student and hostel/room/bed modules.
- Devansh (Architecture / Development Lead): architecture, components and architecture traceability; allocation, payment and report modules.
